Fair Return of Spring Oats is the Rule. Apples and Produce Are Said

to Be Very Scarce.

Generally dry and hot weather prevailed over the State during the week, afternoon temperatures ranging up almost daily to between 95 and 100 degrees. Some of the nights were also warm and sultry, but as a rule radiation of heat was free and unobstructed and for the most part nocturnal temperatures were cool and refreshing. Rainfall was rather lacking, especially in the Middle and Valley counties, where conditions are reported by many correspondents as being Valley counties, where conditions are reported by many correspondents as being droughty. Where local snowers nave fallen, however, the crops are very promising. In the Tidewater division rains have been more frequent and abundant and the general crop situation is better than in other parts of the State. The hay crop has been about all secured, except in portions of the Valley division. Peanuts are growing fast and the fields Peanuts are growing fast and the fields are clean. CAN TAFT ACCEPT AT WEST POINT

Team of the Ariel Rowing Club of Baltimore.

The announcement of the proposed regatta to be held at West Point on August 2d. when the crews of the Virginia Boat Club, of Richmond, and the Ariel Rowing Club, of Baltimore, will meet for a race Over a mile straight-away course, was received here yesterday with general ap-proval and enthusiasm among the local oarsmen and their admirers. The recent splendld race on the James between the splendid race on the James between the Virginia Club's crew and the team from Washington and Lee University awakened interest in boat racing here, and as a result it is safe to say hundreds of per-sons from Richmond will see the race at

West Point.

Besides the race between the crews there will be a single scull event, in which Mr. W. C. McGowan, of the Virginia Club, and Mr. Lewis M. Raitz, of the Baltimore Club, will row. Both men are expert oarsmen, and the race should be one of the best ever pulled in the South. The management of Beach Park has been largely instrumental in arranging the meet. To the winning crew the park company will present a handsome silk banner to commemorate the event, while gold medals will be awarded the individual membera. representative of the park company said last night that this is only an entering wedge for an annual regatta, as it is the hope of the promoters that if this proves successful they win have crews from all over the North to comdown to participate next year in a grand regatta, and have Virginia revive her past athletic glories.

No better place than Beach Park, from a spectator's point of view, can be found. The course is laid parallel to the great covered boardwalk, and this gives an unrivalled view of the contest,

There will be music and dancing after the races.

The Baltimore crew and a company of "rocters" will arrive at West Point the day before the race, so that they will have a chance to run over the course. A great deal depends upon their winning the event, as they are entered for the national regatta, which takes place Au-

goest 8th.

The Richmond gig and crew is training assiduously, and the men are in the pink of condition and with every confidence of winning, will go down to the start a body of men that any town would be proud to claim. The crew is made up as follows: No. 1—Augustus Booth: No. 2—James Gliman: No. 3—William Gordon: No. 4— Julien Hill; coxswain-not yet decided. Single sculls-W. C. McGowan.

ment and He Equivocates,

(By Associated Press.)

WASHINGTON, July 22.—Governor Taft has acquinted Secretary Root with the fact reported in the news dispatches from Rome that the Pope has tendered several pretty and appropriate gifts to himself and the members of his party, and he has asked whether these can be lawfully accepted. It was at once recognized that the question thus presented involved some very delicate and interesting points, principal among them being a possible decision, expressly to be avoided at this stage in the opinion of the officials, as to the temporal powers of the Pope. If these were decorations or gifts of great value, then, under the constitutional inhibition, they might not be received without au thority of Congress if the Pope is regarded as having temporal power, was being a prince, a potentate or a sovereign. Secretary Root has, however, avoided an unpleasant decision of this question by informing Governor Taft that if these gifts are not of considerable intrinsic value, and are personal in character, they may be accepted as mere souvenirs, in which case the personality of the giver need not be a matter of official inquiry. On the other hand, if the gifts are of exceptional value, which is not believed to be the case from the newspaper reports, then they may be deposited in the Smithsonian Institute in this city.
